

Merritt Mount

My work with ORG is driven by a keen interest in what makes teams and organizations successful at achieving their goals and getting the results they desire.

Over the past 30 years that interest has taken me to Latin America, the Caribbean, Australia, New Zealand, Europe, Japan, and Nepal. I have worked with many different kinds of organizations ranging from start-ups to multinationals, and from small non-profits to large public agencies. My experience as a staff member, manager, executive, and consultant spans a wide variety of industries and disciplines, including telephony, publishing, high tech, communications, venture capital, social services, health care, and education.

In my work with ORG, I draw on this diverse and deep experience to help teams identify and build on their unique strengths to improve their performance and achieve their goals.

I hold a Bachelor of Arts in Psychology from The Evergreen State College and a Master of Arts in Business Administration from the American Graduate School of International Management – Thunderbird Campus.
